About San Javier

San Javier as a municipality currently has 74.2 km² and its population of right is of more than 32 thousand inhabitants, although in fact it is very superior during all the year, multiplying remarkably in summer time. Due to its special situation, it enjoys 23 km of coastline to the Mar Menor and 16 to the Mediterranean and its average altitude is 17 meters. Three basic elements make the Municipality of San Javier a special place: land, air and sea.

On the one hand, the earth. The important agricultural area of the districts of El Mirador, La Grajuela, Roda, Los Sáez de Tarquinales or Pozo Aledo, produces the most varied plant species. The modernization of irrigation systems, production and marketing, and the implementation of new technologies, has led San Javier to be known in
