

## We are very pleased to bring to the market this fantastic modern Penthouse apartment in the prestigious location of El Raso. The apartment benefits from two bedrooms and two bathrooms one of which is en-suite to the master bedroom, a bright lounge dining area with a brand new kitchen plus a huge private roof solarium to enjoy all year round sunshine. The apartment also comes with an allocated underground parking space and a large communal pool. The apartment is walking distance to shops, bars and restaurants plus a local supermarket and other facilities. There is also a bus service which can take you to the beach town of Guardamar which is only a 5 minute drive away. This is excellent opportunity to own a super penthouse apartment so an early viewing is advised.
