

2 soveværelse Villa til salg i Elda, Alicante

147.000€

We have this great property for sale, very close to the town. It is a large plot, with several storage areas, or two parking spaces. It has a good closed terrace and another open canopy. It has two bedrooms and large living room with fireplace. The kitchen is open to the living room and has an interior patio with barbecue. It is difficult to find properties in this town, and more at such an interesting price. It has a rectangular plot, which makes it wide, and well proportioned. It has a built-in pool, and olive cultivation area, as well as very recent plantations that will shade and grow in all its splendor. Without a doubt it is a property for the new owner to make it his new home and make the decoration he needs to give it the Mediterranean touch he needs. Do not hesitate, we are waiting for you to visit it shortly. You'll love it
