357.000€

Living a dream life is living in Terrazas de Guadaiza

Terrazas de Guadaiza consists of 68 homes, with 2, 3, and 4 bedrooms, arranged over six and seven floors. In addition, this development has common spaces where you can disconnect at the end of a long day or enjoy with family, friends, or your partner.

Basic features: An ode to Andalusian architecture

Terrazas de Guadaiza is composed of two buildings. Two buildings that stand out for their spacious terraces and large windows. Two buildings that integrate perfectly into their privileged location. Terrazas de Guadaiza maintains the emblematic architecture of the place that welcomes it, from Andalusia.

This development features generous spaces and large windows in the homes to take advantage of the light in all its splendor. Amenabar has endowed all homes with spacious terraces to turn these coveted spaces into an extension of the home. The guiding thread of the interior design of Terrazas de Guadaiza is Andalusia's most emblematic color: white. A classic that never disappoints. The simplicity of this color makes the homes in this development bright, timeless, versatile, of quality, and fresh. Homes that generate a sense of calm, tranquility, peace, and relaxation.

Common areas:

Every day we value having possibilities for recreation and outdoor leisure without leaving our home. The common areas have been designed in two unique zones, where you can enjoy the natural surroundings and all kinds of activities.
