9.800.000€

Welcome to a light and pure look villa in La Reserva, inspired by the vibrant mediterranean nature that surrounds us and designed to meet all your hopes and dreams for life. With excellent craftsmanship, durable materials and tailor-made design. A masterpiece by Manuel Ruiz Moriche, the architect who has won the hearts of international clients. This villa has the best panoramic views of Sotogrande, Gibraltar, Africa and the Mediterranean Sea. A villa designed to be enjoyed at any time of the year. With natural materials of the highest standard, modern sophistication makes its appearance in every corner of the Villa. With an area of 1.400 SQM which is expandable, it is the only property available with a view in La Reserva de Sotogrande. The living landscape interacts dynamically with the structures in the garden, nature leads the way, suggesting movement and growth, and constantly redesigning the exterior space as new plants appear. The native species of southern Andalusia are the perfect way to let nature express itself. Olive trees, cypress, cork oak, lavender, rosemary and mastic all help this happen. Sustainability, design, quality, nature, light and views come together to create an experience at the highest level.~
