345.000€

We present this building with charm in Orihuela city. Composed of a local business and two floors with two huge apartments and a house added. This is a great opportunity of investment converting it into a hotel or rental apartments. Is a building built 120 years ago approximately which makes it in a historical place of the city. We can find old design elements of that age like high ceilings, high doors and big windows, and peepholes with a very particular old system in the front doors of the apartments. There are wallpaper of that age in some of the walls and a piano that is possible to keep it for decoration for the new business. This building needs a complete renovation and it is possible to make more apartments inside or rooms for a hotel. In the local business there is a good space to make a restaurant or shop. The entrance of the building is separated from the commercial local so is a good space to convert into the reception. Also there is a garage for several cars and an indoor patio that provides sunlight to the internal face of the apartments. Located in a good neighborhood, this building has park views providing a quiet area, and mountain views in the back side. Walking distance to Ociopía shopping center and the sport center. Don't miss this good opportunity.
