

2 Cuarto Apartamento en venta en Sucina, Murcia

54.950€

A chance to own a piece of paradise in the centre of a Spanish village. The property has everything that you would need on your doorstep. The village is extremely vibrant due to the local mayor planning and maintaining lots of events. The community is simply wonderful. The apartment is based on the top floor with views across the town. The lounge diner is simple in its style but more than adequate & all the white goods are included in the sale. The terrace leading from the lounge is a good size and will allow a small garden furniture set. Inside the master bedroom we find a kingsize bed, two night stands and a floor to ceiling wardrobe. A well designed bathroom separates the 2 bedrooms. It has a bath with a shower, A sink & vanity mirror and a WC. The guest bedroom is a great size! At the moment it is home to 2 single beds however it may lend itself to a double or a king size bed. We have lots of natural light due to a large window. Another positive is the property has air conditioning installed throughout. The property shares an enormous roof top terrace which is a haven for the sunshine or maybe an evening barbecue with a back drop of La Manga in the distance. As a bonus this property also has an underground car parking space in the garage of the building. Contact us for viewings. The nearest beach is a short 15 minute drive along the RM1 motorway and the nearest airport would be 20 mins by car and is located at Murcia. DREAM - BELIEVE - ACHIEVE
