

Casa de Campo en venta en Aceña la Borrega, Cáceres

209.950€

A great opportunity to create a rural tourism project set in 13 hectares (more than 32 acres) of great land with wonderful views in this beautiful part of Extremadura, close to the border with Portugal. 4 cottages surrounding a central courtyard; one of the cottages is habitable now, the other three need restoration. These could easily provide three rental cottages plus one for the owners, totalling around 350 sq m., and already have mains electricity connected. In addition there are lots of olives (approx 200) and other fruit trees and vines and with that amount of land your rural tourism project could easily be self sufficient.
