The most significant aspects of this new development, which are as follows: **▲** architectural design. We maintain classic architecture with a contemporary feel, where the surroundings, with the sea to the east and the mountains to the west, are visible from the large windows. A traditional Mediterranean look with an Arabic influence has been achieved, with the clear predominance of bright Andalusian white, landscaped corners, rounded edges that soften the building and flat roofs which all convey great plasticity in design favouring a varied and harmonious aspect as a whole. Nice views, depending on the location and height of the property, it will have views of the sea, swimming pool or common areas.
