

Land Te koop in Yecla, Murcia

31.995€

Huge building plots with incredible views in Yecla. We present these incredible buildable plots with almost 35,000 square meters in total, they are distributed as follows:- 1 plot of 3,797 square meters with irrigation water and the possibility of connecting the electrical network.- 1 plot of 6,011 square meters with irrigation water and the possibility of connecting the electrical network.- 1 plot of 25,000 square meters, with the possibility of connecting water and electricity. The location of these plots is unbeatable if you want to have the best panoramic views of the different mountains that surround them. They also have a small town and a stud farm right next door for the enjoyment of being able to see people and different animals while being away from the city. Furthermore, it is a great business opportunity for those people looking to make their capital profitable, for example being able to create a caravan area taking advantage of the magnificent views of this location. Possibility of selling the plots separately! If you want more information about this property or would like to make a visit, do not hesitate to contact us.
