

Landhuis Te koop in Yecla, Murcia
70.000€

Wonderful 37,000 m2 plot of almond trees in the Yercla area, very close to the Altamira Caves, which are of great geological value, with wonderful views and easy access. Within the plot, there is a beautiful, completely original stone house of approximately 50 m2 that would be a wonderful restoration project. The almond trees can produce approximately 5,000 kg of almonds per year.
