245.000€

The resort of La Alcaidesa is already well known for its 2 golf courses, one of which is a links course, and the stunning beach which stretches for several kilometres and is never crowded. The resort offers the residents a selection of bars and restaurants, as well as a chiringuito that is open all year round, and a gymnasium. Also currently under construction is a Millennium hotel, which will bring further amenities to this popular residential resort.

All these properties have large terraces with views of the La Alcaidesa Golf Course, so you can enjoy the natural surroundings in the open air in your own home. The communal areas include landscaped gardens, swimming pool, gastroteca and a buggy parking area. For added security and privacy the residential complex is fully enclosed and fenced.

Finished with the latest in building and construction technology, this brand new property comes with a dedicated parking space in the underground garage and a private storage room. In addition, the apartment will be equipped with air conditioning and a fully fitted kitchen with white goods.

This new off-plan apartment is part of a new project which consists of only 55 properties, and is located in the exclusive La Alcaidesa area of Campo de Gibraltar, one of the most popular investment areas of the Costa del Sol.
