

4 soverom Leilighet til salgs i Olvera, Cádiz

72.000€

Located in the New town, this apartment is an incredible opportunity, as apartments such as this do not become available very often. The apartment is on the third floor and is large in its layout. Entering the property you will see two corridors, which kind of act like wings of the apartment, the corridor on the right provides access to a large living room, which has two full length windows and juliet balconies, providing a lot of light into the room. From the same corridor, you can enter the fitted kitchen which also leads on to a small utility area. Continuing along, you have three bedrooms and a bathroom. Two of the bedrooms are outward facing, offering a view of the surrounding countryside and additional storage. The bathroom is well appointed and fully functional. The third bedroom on this wing is a single bedroom and inward facing. The second wing of the apartment leads you to another well appointed bathroom and a large master bedroom with outside views. Other additional desirable features of the property, include a shared roof terrace and secure underground parking with space for two cars. Floor Area: 142 Meters Bedrooms: 4 Bathrooms: 2
