This village house is located in the historic centre of Jávea close to La Plaza de la Iglesia and the covered market. The property currently consists of 2 independent houses and has access from 2 streets. Adjacent to the property is a very large building that is going to be reformed to a luxury hotel. The first property consists of a living-dining room, a kitchen, a bathroom and a laundry room on the ground floor. The first floor consists of two double bedrooms. On the second floor is another bedroom and a large terrace. A further floor may be built, giving the possibility of adding three more bedrooms. The entire house has toska stone walls and the roof and ceilings have already been renewed. The second house has a separate entrance, but can also be connected to the first house. It comprises a living-dining room, a kitchen, three bedrooms and two bathrooms divided over three floors. There is a roof terrace on the fourth floor. (Due to rental reasons, no photos are available for the moment). The property is a stone's throw from several cosy bars and restaurants and within walking distance to all facilities including supermarkets, medical centres, beach, port, etc. This is your chance to buy a property in the heart of Jávea and completely transform it to your own wishes. We have a renovation company ready who knows the property and can carry out the complete renovation as soon as you want. Don't miss this opportunity!
