

3 soverom Herregård til salgs i Iznajar, Córdoba

140.000€

This amazing old property with a generous 14,201m² of land is crying out for someone to love her again.. The Cortijo has a traditional Spanish courtyard which is accessed via original wooden doors adding to the character and charm of the property. There is no doubt that the property needs totally reforming but it retains many features including beamed ceilings, traditional small farmhouse windows and stone floors in part. The property is accessed via a great track giving good access to the Cortijo and surrounding land. There is mains water connected and mains electric is very close by. This could be an amazing project for someone to put their stamp on it, with the benefit of being just a short 5 minute drive to the man-made inland beach of Iznajar and a 10 minute drive in to Rute for those large supermarkets, as well as having spectacular countryside views from every angle.
