We are happy to present you the new project of assistance apartments in one of the best areas in Costa Blanca. The project consists of 46 assistance apartments with 1 and 2 bedrooms and 1 and 2 bathrooms; all designed to enjoy day to day, with very bright rooms and bedrooms. In addition to looking for sustainability and energy savings thanks to the arothermal system that they all have. On the ground floor you will find 9 adapted care apartments. This type of apartment has wider doors, wider corridors and bathrooms fully adapted for people with reduced mobility. Take advantage of the long hours of sunshine and the excellent Mediterranean climate with the solariums for private use; a space in which to live great moments such as summer dinners, having a drink with your friends or sunbathing while reading a book. They all have a tap, drain, lighting and plugs. The assistance apartments include a parking space.
