

Forretningseiendom til salgs i Castillo de Locubin, Jaén

14.000€

ESTABLISHED BUSINESS FOR SALE IN CASTILLO DE LOCUBIN IN THE JAEN PROVINCE OF ANDALUCIA.

Albion foods has been successfully established for over a year providing British foods, drinks and other services for expats living in the local area. They have a wide client base and are the only business in the area offering these products and services.

Located on the local poligono centrally in the Town in a unit of 500 sqm with a three year lease, the current owners wish to include all fixtures and fittings along with stock in the sale.

They have worked hard to build this business and serve the local community over the past year and have a good strong client base along with established links to suppliers and other local businesses. Albion food is very much part of the local community. They have a web page along with social media pages all of which would pass to the new owners.

This is a ready made established business with scope to expand and increase turnover.
