The qualities and finishes will be similar to those in the attached photos, changing them to adjust to the actual distribution of the home, according to the distribution plan. There may be a change in design and color of furniture depending on stock. In the reform, we have opted for the concept of open-plan spaces, merging the kitchen, living room and dining room without walls, in a layout that gives rise to a common living area in which space flows freely, this creating a large, spacious and well-lit place. An open floor plan has a big impact on the way families use the space and interact with each other inside their homes. A very bright and cozy home with a built area of 95 m² on a plot of 290 m². The house is distributed in living room - dining room - kitchen, 2 bathrooms and 3 bedrooms, all with access to a large garden finished with artificial grass. Installation of air conditioning and ducted heating throughout the house. It also has 2 own parking spaces. The Valle del Este golf course is located a few minutes from Vera Pueblo, where it has a health center, schools, banks, supermarkets, sports centers and other necessary services.
