This immaculate, luxury modern villa is set on a tranquil street in Los Balcones.

It really has to be seen to fully appreciate the thought that has gone into creating the most amazing house – both inside, and out. It is luxury living at its best, from the heated pool with wrap around private terrace, to the floor to ceiling privacy glass, and a beautiful 'floating staircase' which perfectly compliments the designer living area – little touches like underfloor heating, & walk in wardrobes make it perfect. The villa has a huge roof terrace with spectacular views, & a secure garage for 3 vehicles.
