

7 bedroom Villa for sale in Alozaina, Málaga

639,000€

Driving through the beautiful Andalusian landscape we can already see this IMPRESSIVE VILLA Lloyd, from afar between the mountains of Alozaina. It cannot be missed that this is the property we are going to visit today. Via a good dirt road of about 1 km we arrive at the Villa. We park the car and there is plenty of space for several cars to park. We are in front of a beautiful authentic Spanish double door. We leave it closed and enter the house through a door on the side. When opening the door we enter the hall. What immediately attracts attention is the spacious layout of the house because we can immediately look far away into the living room. Before we walk further we first look at the first, of no less than 7 BEDROOMS in total, which can be reached directly from the hall. This bedroom has an ensuite bathroom. Here comes our first idea. By closing the passage to the living room you can create an apartment with private entrance and private terrace. We walk through to the living room, which is overwhelmingly large, and extends over almost the entire width of the house. The living room is large enough so there is also room for a dining table with no less than 16 chairs. The open kitchen is simple and will need some attention to make it to your personal wishes. As we walk through the room we also pass the beautiful large authentic double door. This we open so the warm wind blows through the house. If it gets too hot then the air conditioning throughout the house can provide cooling. However, you will never get cold because this house also enjoys the luxury of a central heating system which is ideal in winter. Furthermore, this spacious living room has access to a separate bathroom and 2 bedrooms, one of which has an ensuite bathroom. The eye-catcher of this space is the gigantic terrace of 45 m² net BBQ which can be reached through the many windows/doors. These turn / tilt doors are all double glazed. From that terrace you have a beautiful panoramic view over the mountains and garden. We are so enjoying this view that we almost forget that we haven't seen half of the house yet and decide to move on quickly. Through a second hall on the side, where another bathroom can be found. We can choose to go up the spiral staircase or walk down. We choose that last one. Via a solid stone staircase we walk down where we end up in a long corridor. At the beginning of this corridor is a small kitchenette with a door to the terrace. Then we first come to a large bedroom with an ensuite bathroom. Further in the hallway there are two
