2,650,000€

What an interesting proposition! The plot in La Caleta seems like a perfect place to build a luxury villa. The combination of the location on the prestigious Avenida Las Palmitas and the design by a renowned architect like Antonino Jorge Mejias makes it even more attractive. The project for a villa with a pool, gym, spa and so many other amenities sounds impressive.~If you had to highlight just one aspect of this property, what would you say makes it unique or more special?~.~LAST RESIDENTIAL PLOT AVAILABLE ON THE PRESTIGIOUS LAS PALMITAS AVENUE, LA CALETA, with IMMEDIATE construction license, For purchase with completed work (according to images) turnkey~Plot area: 2,500 m2~Buildability: 375.7 m2~Maximum occupancy: 15%~Height: 2 floors plus basement~Boundary setbacks: 3 meters~Road setbacks: 5 meters
