The architecture of this complex was meticulously designed with varying heights to maximize the natural light of the Mediterranean, bathing each home in warm luminosity. Marbella Sunset is a boutique community featuring 14 spacious flats, offering 3 and 4-bedroom options.

In the communal areas, the presence of water with its two swimming pools and a water fountain are integrated into the gardens and sunbathing areas, creating a perfect environment to relax, enjoy the Mediterranean climate and the fantastic sunsets.

At Marbella Sunset, each home is unique and no two are alike. However, they all share a special feature: a spatially focused approach. The floors of the rooms flow seamlessly into the terraces, creating a sense of spaciousness and connection to the natural surroundings of the sea and mountains.

The exterior of Marbella Sunset combines the elegance of wood and glass with the robustness of stone. Its design takes advantage of the unevenness of the terrain to create unique and different homes: ground floors with private gardens, penthouses with spectacular terraces and private swimming pool, intermediate flats bathed in natural light, all open to the landscape.
