Property details

Imagine living in a house where comfort is a priority. With underfloor heating throughout the house and air conditioning, you can enjoy a perfect temperature at any time of the year. In addition, the aerothermal hot water system guarantees a constant and efficient supply.

But that's not all, this villa has a Thyssenkrupp elevator, making it easy to access all floors of the house. You will no longer have to worry about climbing stairs, this elevator will take you from the basement to the solarium without any effort.

The quality of the materials used in this property is exceptional. With Porcelanosa qualities, you can be sure that every detail has been carefully selected to provide you with an elegant and sophisticated environment. The wooden floors on the first floor add a touch of warmth and comfort to the interior spaces.

The luminosity is another highlight of this villa. The large windows allow natural light to flood every corner of the house, creating a bright and cozy atmosphere. In addition, the floor-to-ceiling sliding windows with tracks embedded in the floors offer a perfect connection between the interior and exterior spaces, reinforcing the concept of outdoor living.
