

6 chambre Villa à vendre dans La Siesta, Ibiza

995.000€

This Ibiza property has the structure complete but needs to be finished.

The family Villa is divided over three floors and offers six bedrooms, five bathrooms, kitchen, separate dining room, several balconies, roof terrace and a large basement with space for parking, cinema room or a gym. An elevator shaft is built to connect the floors from the basement to the rooftop.

Entering the property via the impressive stone staircase and arrive on the second floor where there is space for a large kitchen, dining area, a master bedroom, walk in closet own bathroom ensuite and a guest bathroom. On this floor there are two balconies; from the living room and from the bedrooms. From this floor there are lovely green mountains views to Santa Eulalia town and to the cathedral. On the first floor there are the other five bedrooms and three bathrooms also with two balconies.

There is a large roof terrace where you can install a Jacuzzi as the floor is reinforced for this purpose. As the area here is large there is also space to put solar panels and to have a chill out area. The villa has preinstalled air conditioning and electricity.

This property is ideal for those you want to finish a project and choose their own materials to create their Ibiza dream home. The location is only a few minutes' walk into town and the beach is also within walking distance.
