

земля продается в Competa, Málaga

67.000€

This lovely urban plot of 277 m² is situated only a few minutes from the pretty central plaza and all local amenities including shops, banks and some excellent restaurants.

Preliminary studies have been made as to the possibility of building an apartment building of three floors which would include 10 apartments, garage, and store rooms. The apartments would have terraces. Of course it would just as easily be possible to construct a family home or larger apartments to provide a rental income.

It is not often possible to purchase a plot of urban land and at such a reasonable price it could be purchased now and constructed on at a later date.
