Located on the third (top) floor of this building, as we enter the apartment first we find a spacious hallway, to the left is the kitchen-dining room and at the end there is a laundry room, with the gas hot water heater. The hallway has a large wardrobe and then we come to the large lounge-dining room with the terrace facing West, with sea views.. From the lounge a passageway takes us through to the bedrooms, we have 2 cream rooms one to the right and one to the left, the last one has a fitted wardrobe, following the passageway at the end there is a guest toilet between the 2 blue bedrooms, again one to the left & one to right, each with fitted wardrobes, and also on the right between the cream & blue bedrooms we find the bathroom. These apartments were built in 1983 and it is easy to see how the partition walls can be taken out to make bigger rooms or a more open plan layout, if you were interested in doing a full renovation and remodel.

There are shops, bars, restaurants, parks, children's play parks, schools, chemists etc, and plenty of street parking all in the vicinity of the block. Malaga airport is just 45 minutes drive from here.
