

3 sovrum Lantställe till salu i Monte Lope Alvarez, Jaén

140.000€

This large urban property in Monte Lope Alvarez in the Jaen province of Andalucia, Spain, has a well, fruit trees and an olive grove. Live in a town but feel like you are in the country. With its 254 build and 5,316m2 plot the house itself has been renovated on the ground floor, the huge attic space is a blank canvas of possibilities. The double garage doors to the right of the property open to a driveway that goes passed the house, the well, outbuildings and pool to another set of double gates which open into the olive grove with around 26 olive trees as well as other fruit trees. The house has no end of possibilities to make more bedrooms or large studio. This is an unusual property with so much outside space as though you are in the countryside yet with shops and bars nearby. Add it to your list to view.
