The project consists of two-storey villas with 3 en-suite bedrooms and a basement, built on plots of 393m²-434m².

The main floor is open plan and combines the kitchen and dining island with the living room with a double-height ceiling. The master bedroom also has its own dressing room. The basement is a multi-purpose space with many possibilities, and includes a storage room and pre-installation for a bathroom and/or kitchen.

The villas are built with high-quality finishes such as air conditioning, underfloor heating, integrated white goods, complete bathrooms with towel heating, decorative fireplace in the living room, saltwater swimming pool, pre-installation for an irrigation system in the garden and on-site parking. For an additional cost, it is possible to adapt the basement, landscaping, etc.

Polop offers a wide range of daily services and amenities, such as supermarkets, shops, banks and pharmacies, as well as bars and restaurants. The beaches of Altea and Benidorm are 8 km and 10 km away, respectively. There are many activities in the area, such as golfing, hiking, amusement and theme parks, water activities and sailing.
